Payment & Insurance Policy

Although we kindly request payment in full at the time care is provided, we will submit claims to your insurance on your behalf. Similar to many dental offices in our area, we do not contract with any insurance companies. Our emphasis is on providing the best care for each individual patient without treatment being dictated by an insurance contract. If the insurance company sends reimbursement to us in error, we will promptly send a refund to you.

There are multiple insurance companies providing benefits in our area and each insurance company provides many plans for different employers. For this reason, we are unable to tell you if a procedure is covered, or how much reimbursement you can expect. If you require advance notice of estimated reimbursement by your insurance company for a procedure, we can submit a pre-authorization request to your insurance company on your behalf.

Forms of Payment

We accept all major credit cards, cash and personal checks. We offer a 5% discount when paying by cash or check at the time of service. Should you need to establish a payment plan, we accept Care Credit. You may apply with them by calling 800.365.8295 or go online to www.carecredit.com. We honor the 6 month deferred interest option.

The commitment that we have for our patients and each other are the qualities that our core values reflect:

- **Honesty:** truthfulness and trustworthiness
- **Respect:** each person has **value**
- **Integrity:** being true to self, acting with high moral and professional principles, doing "the right thing"
